

ADVANTAGES of Soft Water

- Softer Skin & Hair
- Brighter Clothes
- Use Less Soap to Get More Lather
- Makes Cleaning Easier / Less Household Cleaners Needed
- Reduces Spots on Dishes & Fixtures
- Extends Life of Appliances & Hot Water Tanks
- Extends Fabric Life

Soften your water for healthier living!

Hard water is the result of a combination of dissolved calcium and magnesium. These minerals cause soap scum and water spots on water fixtures, and can greatly shorten the lifespan of common appliances. Hard water frequently necessitates 20-30% more energy to heat water, and 3-4 times more soap and detergent for cleaning and laundry.
